*Positive Feedback from our August 2018 School Survey of Parents*

---

The school is perfectly balanced with great staff and great cultural diversity

...have fun events for the children to keep the year interesting...

We love the feedback from teachers and principal, we feel very confident with our son at Lockleys.

Being a small school, the students, parents and teachers all support each other. They are always looking out for each other and looking for ways to improve the school.

Open communication with teachers and principal and the ability to make contact easily, especially with regards to behavioural issues. (there is a) Community feel.
